

StreamSweepers

HUGHES RIVER JOB CORPS 2016

In 2016, StreamSweepers (www.streamsweepers.org) will train and hire local young adults to clean the entire Hughes River, a state Scenic River, from Shenandoah National Park to the Hazel River.

- StreamSweepers is a job corps program which trains and employs young adults to clean and assess Virginia's rivers.
- We have cleaned over 100 miles of river, including the entire Rapidan River and most of the Robinson River.
- We are a bridge between youth camps and clubs and successful adult employment (hiring begins in May).
- We need your help to introduce us to other interested landowners, businesses, and organizations who can help.
- We need river access from riverside landowners for canoe launching, emergency access, and trash removal.
- Please call us at (540) 672-2542 or email debbie@naturalcapital.us if you want to help, apply or donate funds.
- StreamSweepers is an award winning program (American Canoe Association 2014 Program of the Year, Virginia General Assembly Commendation 2015) of a small, local non-profit organization in Orange called the Center for Natural Capital (www.naturalcapital.us).
- StreamSweepers shows our young adults how to create a positive future through meaningful work.

Your support, of any kind, will help us bring this award winning program to clean the Hughes River in 2016.
